SPEED-LIMITING SYSTEMS

12. For the purposes of section 68.1 of the Act,

“commercial motor vehicle” means a commercial motor vehicle as defined in subsection 1 (1) of the Act.

13. (1) A commercial motor vehicle is exempt from subsections 68.1 (1), (2), (3) and (6) of the Act if it is.

(a) a bus;

(b) a mobile crane;

(c) a motor home;

- (d) a vehicle manufactured before 1995;
- (e) a vehicle with a manufacturer's gross vehicle weight rating under 11,794 kilograms; or
- (f) an ambulance, a cardiac arrest emergency vehicle, or a fire apparatus.

(2) For the purposes of clauses 1 (d) and (e), the date that a commercial motor vehicle was manufactured and its manufacturer's gross vehicle weight rating shall be deemed, in the absence of evidence to the contrary, to be,

- (a) the date and weight on the commercial motor vehicle's compliance label; or
- (b) where a commercial motor vehicle does not have a compliance label affixed or the label is illegible, a document from the vehicle's manufacturer that is carried by the driver and that references the vehicle's vehicle identification number and indicates its year of manufacture and gross vehicle weight rating.

(3) A commercial motor vehicle is exempt from subsection 68.1 (1) of the Act if,

- (a) it is not equipped with an electronic control module capable of being programmed to limit vehicle speed;
- (b) it is engaged in providing relief in an emergency, being a situation or impending situation that constitutes a danger of major proportions to life, property or the environment, whether caused by forces of nature, an accident, an intentional act or otherwise; or

(3) The maximum speed under subsection (1) shall be set by means of the electronic control module that limits the feed of fuel to the engine.

(4) A commercial motor vehicle is exempt from subsection (3) if it is equipped with an equally effective system, not dependent on the electronic control module, that allows limitation of vehicle speed, remotely or not, but does not allow the driver to deactivate or modify the system in Ontario so that it does not comply with subsections (1) and (2).

15. (1) A speed-limiting system shall be in good working order.

(2) Without limiting the generality of subsection (1), all aspects of a commercial motor vehicle's computer system or systems, computer programs, components, equipment and connections that are capable of playing a role in preventing a driver from increasing the speed of a commercial motor vehicle beyond a specified value shall be in good working order.

16. A commercial motor vehicle's electronic control module shall contain information that accurately corresponds with any component or feature of the vehicle referred to in the module, including information regarding the tire rolling radius, axle gear ratio and transmission gear ratio.

PROFESSIONAL SERVICES GUIDELINE

Superintendent's Guideline No. 01/08

Introduction

This Guideline is issued pursuant to subsection 268.3 (1) of the *Insurance Act* for the purposes of subsections 14 (4), 15 (6), 17 (2) and 24 (2) of the *Statutory Accident Benefits Schedule - Accidents on or After November 1, 1996* (SABS), and applies to expenses related to services rendered on or after July 1, 2008.

The maximum hourly rates and maximums payable for the completion of certain forms set out in this *Professional Services Guideline* apply to services rendered on or after July 1, 2008 even if approved prior to July 1, 2008.

Purpose

This Guideline establishes the maximum expenses payable by automobile insurers under the SABS related to the services of any of the health care professions or health care providers listed in the Guideline. These maximums are applicable to:

- a medical benefit under clauses 14 (2) (a), (b), or (h) of the SABS;
- a rehabilitation benefit under clauses 15 (5) (a) to (g) or (l) of the SABS;
- case management services under subsection 17 (1) of the SABS; or
- conducting an examination or assessment or provision of a certificate, report or treatment plan under subsection 24 (1) of the SABS.

Insurers are not prohibited from paying above any maximum amount or hourly rate established in the Guideline.

Services provided by health care professionals/providers, unregulated providers and other occupations not listed in the Guideline are not covered by the Guideline. The amounts payable by an insurer related to services not covered by the Guideline are to be determined by the parties involved.

Maximum Fees

Automobile insurers are not liable to pay for expenses related to professional services rendered to an insured person that exceed the maximum hourly rates set out in the Appendix.

Health Claims for Auto Insurance (HCAI)

With the implementation of the Health Claims for Auto Insurance (HCAI) system for transmitting certain accident benefit claim forms between health care providers and insurers through a central processing agency (CPA), the maximum payable for a fully completed electronic version of the OCF-18 and OCF-22 to the CPA is \$70.00 while the maximum payable for a fully completed paper or other versions of the OCF-18 and OCF-22 is \$63.72, as set out in the Appendix.

Expenses for Completion of Forms

Automobile insurers are not liable to pay for expenses related to the completion of certain accident benefit forms by the health professionals and providers listed in this Guideline that exceed the maximums set out in the Appendix. These maximums do not apply to the assessments related to the completion of these forms.

The expense for completion of an Application for Approval of an Assessment or Examination (OCF-22) is payable only following the approval by the insurer of any assessment or examination proposed in the OCF-22, or a final determination by a Court or arbitrator that any assessment or examination proposed in the OCF-22 is reasonably required.

Collateral Benefits

In respect of any expense referenced in this Guideline or in previous Superintendent's *Professional Services Guidelines*, the amount which an insurer would otherwise be liable to pay is subject to reduction by that portion of the expense for which payment is reasonably available under any insurance plan or law or under any other plan or law.

Administration Fees

"Expenses related to professional services" as referred to in the SABS and the *Professional Services Guideline* include all administration costs, overhead, and related fees. Insurers are not liable for any administration or any other charges or surcharges that have the result of increasing the effective hourly rate beyond what is permitted under the *Professional Services Guideline*.

PRE-APPROVED FRAMEWORK GUIDELINE FOR GRADE I AND II WHIPLASH ASSOCIATED DISORDERS

Superintendent's Guideline No. 02/08

1. Introduction

This Guideline is issued pursuant to Section 268.3 of the *Insurance Act* for the purposes of the Statutory Accident Benefits Schedule (SABS).

This Guideline replaces the Pre-approved Framework Guideline for Grade I and II Whiplash Associated Disorders - Superintendent's Guideline No. 06/07, June, 2007.

For the purposes of this Guideline, the terms "injury" and "injuries" have the same meaning as "impairment" and "impairments" respectively, and "regulated health professional" has the same meaning as "member of a health profession" as defined in the SABS.

This Guideline is effective for new Pre-approved Framework (PAF) Treatment Confirmation Forms (OCF-23) that are submitted by a health practitioner on or after July 1, 2008, or when the insurer has waived the requirement for an OCF-23 on or after July 1, 2008. The previous WAD I and WAD II Guideline remains in effect for OCF-23 forms that are submitted by a health practitioner before July 1, 2008, or when the insurer has waived the requirement for an OCF-23 before July 1, 2008.

The objectives of this Guideline are to:

- a) Speed access to rehabilitation for persons involved in auto accidents;
- b) Improve utilization of health care resources; and
- c) Provide certainty around cost and payment for insurers and health practitioners.

Consistent with these objectives, this Guideline sets out:

- a) The goods and services that may be provided to an insured person who has sustained a Grade I or Grade II Whiplash Associated Disorder (WAD I or WAD II); and
- b) The goods and services that, if provided to the insured person, will be paid for by the insurer without insurer approval.

This Guideline is focussed on the application of a **functional restoration approach**, in addition to the provision of interventions to reduce or manage pain or disability, in the management of Grade I and Grade II Whiplash Associated Disorders in the acute and sub-acute phases of the injury.

2. Impairments that come within this Guideline

Subject to the exceptions listed in Section 3, below, an insured person's impairment comes within this Guideline if he/she has a WAD I or WAD II injury.

The insured person may experience complaints and/or symptoms associated with a WAD I or WAD II injury such as: non-radicular back symptoms, shoulder pain, referred arm pain (not from radiculopathy), dizziness, tinnitus, headache, difficulties with hearing and memory acuity, dysphagia and temporomandibular joint pain. The Guideline shall continue to apply to insured persons who experience additional complaints and/or symptoms as long as the health practitioner believes that these complaints and/or symptoms can be effectively managed within the timeframe and scope of the Guideline interventions.

3. Impairments that do not come within this Guideline

An insured person's impairment does not come within this Guideline if the insured person has specific pre-existing and/or accident related occupational, functional or medical circumstances that:

- A. Preclude the insured person from being able to fully participate in the functional restoration model; or

Require concurrent treatment in addition to the treatment that is provided within this Guideline,

and

- B. Constitute compelling reasons why other goods or services are preferable to those provided for within this Guideline.

4. Providers able to deliver services within this Guideline

Providers who are able to deliver services within this Guideline are any health practitioners, as defined by the SABS, who are authorized by law to treat the injury and who have the ability to deliver the interventions included in this Guideline. The health practitioner may also co-ordinate the provision of services by other regulated health professionals, or may directly supervise the provision of services to the insured person by one or more other health providers.

5. Changing health practitioners within this Guideline

Insured persons who are already receiving services under this Guideline may occasionally decide to change their health practitioner. In this case, the new health practitioner will inform the insured person's insurer, who will advise the new health practitioner as to what services have already been provided under the Guideline. The health practitioner will then resume delivery of Guideline services at whatever stage is most appropriate in meeting the insured person's needs. Payment of the new health practitioner will be limited to the balance of the remaining services under this Guideline.

6. Definitions

This Guideline is focussed on the application of a functional restoration approach in the management of Grade I and II Whiplash Associated Disorders in the acute and sub-acute phases of the injury.

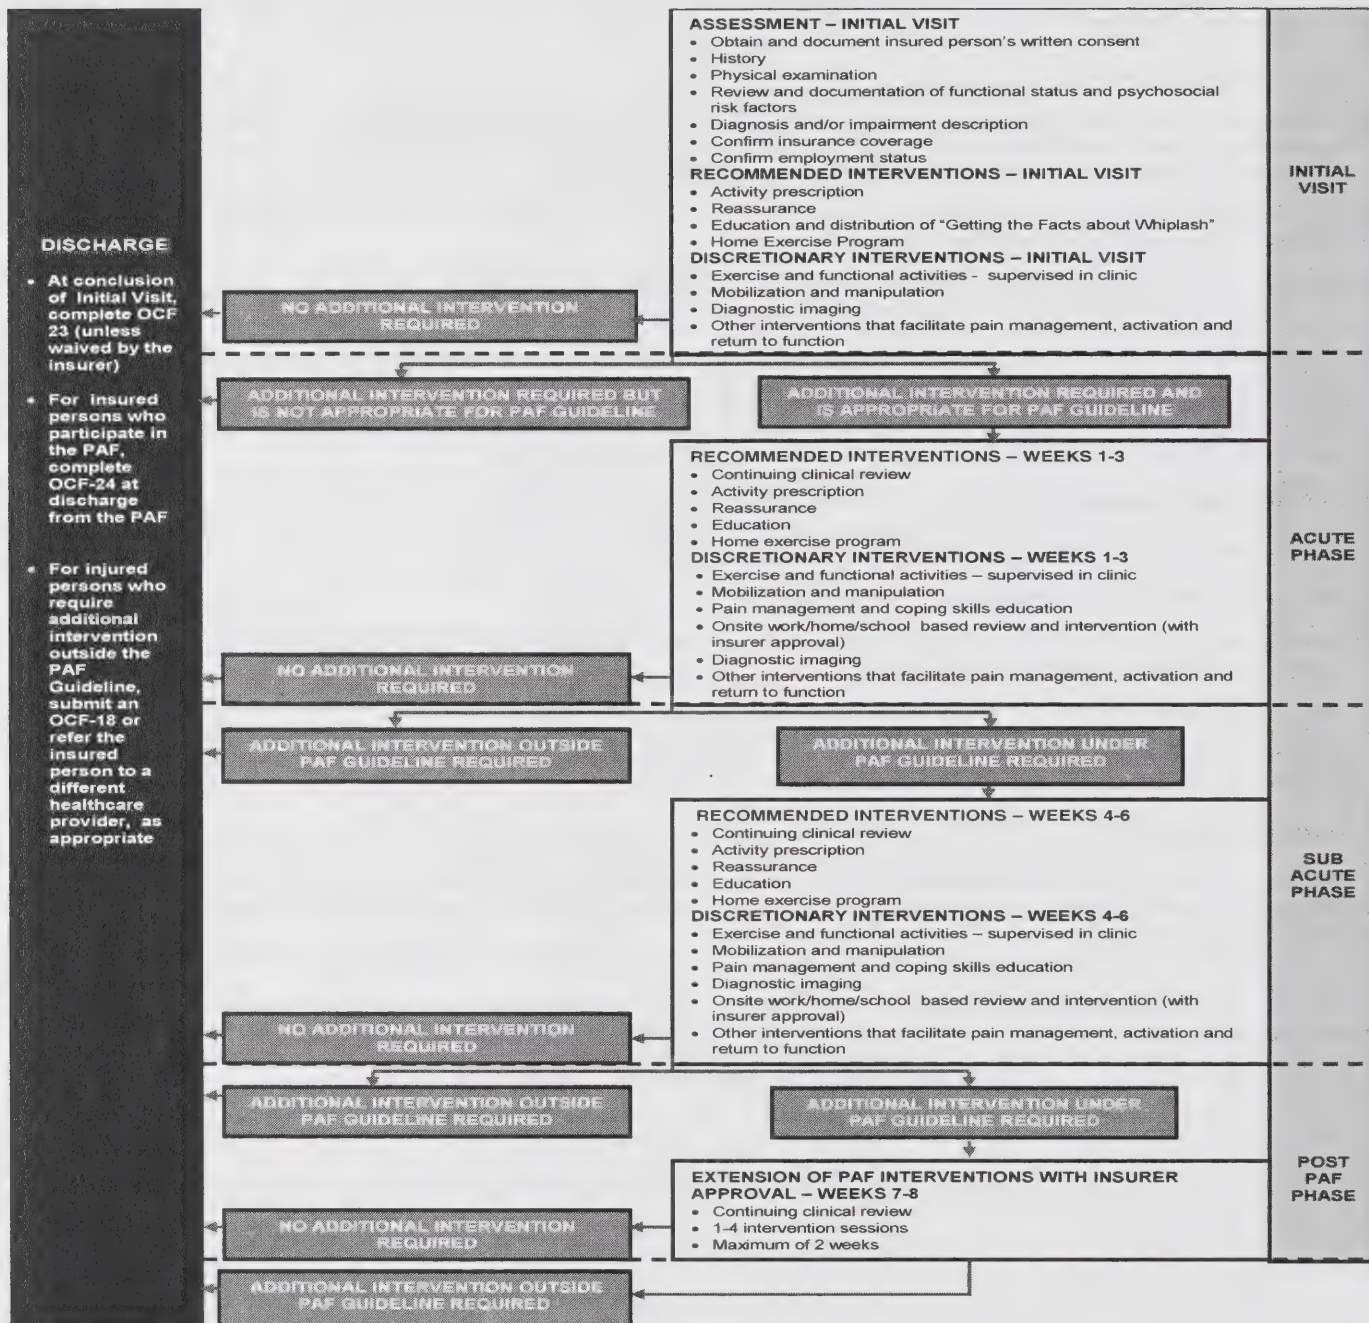

For the purposes of this Guideline:

- a) **Whiplash** refers to an acceleration-deceleration mechanism of energy transfer to the neck that may result in bony or soft-tissue injuries and may lead to a variety of clinical manifestations called Whiplash-Associated Disorders (WAD) as set out in the Société de l'assurance automobile du Québec's Task Force Report titled "Redefining Whiplash and its Management", published in the April 15, 1995 edition of Spine.
- b) **WAD I or Grade I whiplash-associated disorder** refers to a disorder in which the insured person with a whiplash injury presents with complaints of neck pain, stiffness, or tenderness but has no physical signs or findings.
- c) **WAD II or Grade II whiplash-associated disorder** refers to a disorder in which the insured person with a whiplash injury presents with complaints of neck pain, stiffness, or tenderness, as well as musculoskeletal sign(s), including decreased range of motion and/or point tenderness.
- d) **Functional restoration** refers to an approach in which the regulated health professional is oriented toward function and to the delivery of interventions that help the insured person to reduce or manage his/her pain. Interventions are focused on what the insured person needs to do in order to function in his/her home and work environment. The insured person is assessed to determine the level of current functioning relative to these critical demands and any functional limitations that have arisen as a result of the injury. The interventions delivered by the regulated health professional are then designed to address these areas of limitation such that the individual will be able to maintain and/or resume normal activities at home and at work.
- e) **The acute phase of treatment** refers to weeks 1 – 3 following the initial visit.
- f) **The sub-acute phase of treatment** refers to weeks 4 – 6 following the initial visit.
- g) **The post-PAF phase of treatment** refers to weeks 7 – 8 following the initial visit.
- h) **Recommended interventions** refers to interventions that are ideally provided to the insured person by the health practitioner each time the insured person attends the health practitioner's clinic to receive PAF services.
- i) **Discretionary interventions** refers to interventions that are not necessarily provided each time the insured person attends the health practitioner's clinic to receive PAF services, but rather are provided at the discretion of the health practitioner based upon the specific needs of the insured person. The use of the term "discretionary" to describe specific interventions that fall into this category **should not be interpreted** to mean that these interventions are less important in the treatment of the insured person.

7. PAF Guideline flowchart

The following flowchart represents both the elements and sequence of activities within this Guideline and is intended to be used as a visual guide and quick reference to those who are involved in the delivery and management of services under this Guideline. Each of the elements of this flowchart is described in more detail in the remainder of this document.

PAF Guideline Flowchart

8. The initial visit

a) Timing, duration and number of sessions during the initial visit

The initial visit and all components thereof, will take place on the same day and will ideally occur as soon as possible following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention. Health practitioners are encouraged to commence intervention during the initial visit.

b) Components of the initial visit

i. Assessment

In assessing the insured person, the health practitioner will be responsible for:

- **Undertaking a history, including:**
 - Demographics;
 - Prior history of injury, illness and/or disability;
 - Prior history of neck problems and/or whiplash injury;
 - Prior history of assessment and treatment;
 - Circumstances and mechanism of the current injury;
 - Symptoms associated with the current injury; and
 - Severity of symptoms associated with the current injury.
- **Completing a physical examination, including:**
 - Assessment of general condition;
 - Inspection;
 - Palpation for tender points;
 - Determination of range of motion;
 - Neurological examination; and
 - Assessment of associated injuries.
- **Reviewing and documenting functional status and psychosocial risk factors including:**
 - Changes in the insured person's functional status as a result of the injury and any associated functional limitations in his/her ability to perform work, home or school related functional demands;
 - Psychosocial issues experienced by the insured person as a result of the injury; and
 - Other risk factors that are complicating or acting as barriers to recovery from the injury.

It is understood that the review and documentation of functional status and psychosocial risks factors is within the scope of practice of the health practitioner and does not involve a formal psychological assessment. While it is recommended that the health practitioner employ standardized tools and instruments in the review of functional status and psychosocial risk factors, the specific tools used are left to the discretion of the individual health practitioner.

- **Identifying the diagnosis and/or impairment description, including:**
 - The Primary Diagnosis/Impairment Description (ICD 10 Codes); and
 - The Secondary Diagnosis/Impairment Description (ICD 10 Codes).
- **Obtaining the insured person's informed consent to participate in the PAF and recording consent on the PAF Treatment Confirmation Form (OCF-23) (or elsewhere as appropriate if the insurer waives the requirement for the OCF-23)**
- **Through discussion with the insured person, confirming the insurance coverage (if known by the insured person) including:**
 - Obtaining the insured person's automobile insurance company, policy number and the name of the adjuster;
 - Determining if the insured person has any other insurance coverage for services (e.g. extended healthcare coverage); and
 - Determining if the insured person has contacted his/her insurance company. If contact with the insurance company has not yet occurred, the health practitioner will encourage the insured person to do so and to complete the Application for Accident Benefits (OCF-1).
- **Through discussion with the insured person, confirming the employment status to determine:**
 - If he/she was working at the time of the accident;
 - If he/she was a care giver at the time of the accident; and
 - If the injuries are preventing the insured person from fulfilling his/her work or care giving responsibilities.

ii. Recommended interventions during the initial visit

The interventions that are recommended during the initial visit include:

- **The activity prescription**
The health practitioner will, as appropriate, encourage the insured person to remain active and maintain normal activities as an important factor in facilitating his/her recovery. In so doing, the health practitioner will focus on improvement in function and will encourage the adoption of an active, positive and realistic attitude toward recovery.
- **Reassurance**
The health practitioner will, as appropriate, provide reassurance to the insured person regarding his/her injuries and the recovery process and will inform the insured person that most people with WAD I and WAD II are able to return to a pre-accident level of functioning within the first few weeks following the injury.

- **Education**

The health practitioner will, as appropriate, distribute the brochure "Getting the Facts About Whiplash" (attached as Appendix A) and will educate the insured person regarding whiplash injuries, the symptoms that can be expected, the natural healing process and his/her prognosis for recovery.

- **Home exercise program**

The health practitioner will, as appropriate, demonstrate and provide advice on how the insured person should safely and regularly exercise his/her neck. The health practitioner will customize an exercise program for the insured person to engage in at home, at work or at school.

iii. Discretionary interventions during the initial visit

The interventions that may be provided during the initial visit, at the discretion of the health practitioner, include:

- **Exercise and functional activities**

If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from exercise and functional activities during the initial visit to facilitate his/her recovery and return to function, the health practitioner may provide these interventions. The types of exercises and functional activities should be based on the specific needs and functional requirements of the insured person and the clinical judgment of the health practitioner. The exercises and functional activities referred to in this section are supervised within the clinic environment and may include, but are not limited to:

- Range of motion exercises;
- Muscle re-education; and
- Low load isometric exercise to restore appropriate muscle control and support to the cervical region.

- **Mobilization and manipulation**

If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from mobilization and/or manipulation during the initial visit to facilitate his/her recovery and return to function, the health practitioner may provide these interventions. It should be noted that the scientific evidence indicates that during the acute phase, mobilization and manipulation are most effective in managing WAD I or WAD II when combined with exercise.

- **Diagnostic imaging**

X-rays may be undertaken with the insured person without the prior approval of the insurer under the following circumstances:

- The fees charged do not exceed those listed in Appendix C and any available funding from OHIP or collateral insurance is utilized before the insurer is charged;
- No other comparable x-rays have been taken by another health practitioner or facility since the accident; and
- The insured person displays one or more of the following:
 - Suspicion of a bony injury;
 - Suspicion of degenerative changes, instability or other conditions of sufficient severity that counter indications to one or more interventions must be ruled out;
 - Suspicion of rheumatoid arthritis;
 - Suspicion of osteoporosis; or
 - History of cancer.

- **Other interventions that facilitate pain management, activation and return to function**

If, based upon the initial assessment of the insured person, the health practitioner determines that the insured person would benefit from other specific interventions to facilitate pain management, activation and return to function, these interventions may be provided during the initial or subsequent visits. This may include, but not be limited to massage therapy. The health practitioner should keep in mind the scientific evidence regarding the most appropriate interventions in the management of WAD I or WAD II injuries during the acute phase. The scientific evidence also indicates that interventions such as advice to rest and continuous use of a soft collar are contraindicated in the management of this population.

c) Recommendations for intervention based on the initial visit

Based upon the assessment of the insured person, the health practitioner will determine which of the following statements describes the recommendations for intervention at the conclusion of the initial visit:

- No additional intervention is required;
- Additional intervention is required and is appropriate for this Guideline (therefore the insured person's impairment comes within the Guideline); or
- Additional intervention is required but is not appropriate for this Guideline (i.e., the insured person's impairment does not come within the Guideline for the reasons described in paragraph 3 of this Guideline).

d) Documentation and invoicing at the conclusion of the initial visit

At the conclusion of the initial visit, the health practitioner will complete and submit the OCF-23 (unless the insurer has waived the requirement for the OCF-23).

At the conclusion of the initial visit, the health practitioner may complete and submit the Auto Insurance Standard Invoice (OCF-21C) in order to generate a payment for the initial visit.

e) Fee for the initial visit (see Appendix B - PAF Fee Schedule)

The fee that will be paid for the initial visit is \$208.49. This fee will be inclusive of all assessment and intervention services provided during the initial visit. The fee will be payable regardless of how many or what types of interventions are provided during the initial visit.

9. The acute phase

The insured person continues on to the acute phase of the Guideline if, based upon the assessment undertaken during the initial visit, the health practitioner determines that the Guideline applies to the insured person, and the insured person requires intervention under this Guideline to facilitate recovery and return to function.

a) Timing, duration and number of sessions in the acute phase

The acute phase will typically not exceed three weeks in duration and will ideally occur during weeks one, two and three following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

The sessions during the acute phase are in addition to any intervention provided during the initial visit. It is expected that the regulated health professional will deliver up to 10 sessions in the acute phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the regulated health professional.

b) Components of the acute phase

i. Recommended interventions during the acute phase

- **Continuing clinical review**
Throughout the acute phase, the health practitioner will regularly review the clinical status of the insured person and his/her progress toward functional restoration. Based upon the continuing clinical review, the health practitioner will make any necessary modifications in the approach to intervention.
- **Activity prescription (as described above under the initial visit)**
- **Reassurance (as described above under the initial visit)**
- **Education (as described above under the initial visit)**
- **Home exercise program (as described above under the initial visit)**

ii. Discretionary interventions during the acute phase

- **Exercise and functional activities (as described above under the initial visit)**
- **Mobilization and manipulation (as described above under the initial visit)**
- **Pain management and coping skills education**
If, based upon the initial assessment and/or continuing clinical review during the acute phase, the health practitioner identifies that the insured person is displaying signs of distress or difficulties coping with the effects of his/her injury, the health practitioner may introduce pain management and coping skills education to address these barriers to recovery. It is recommended that the health practitioner employ a standardized approach to pain management and coping skills education however the specific approach is left to the discretion of the individual health practitioner.
- **Diagnostic imaging (as described above under the initial visit)**
- **Ancillary goods or services**
With prior insurer approval, certain ancillary goods or services may be provided by a regulated health professional while the insured person continues to be covered by this Guideline.

For the purposes of this Guideline, the ancillary goods or service which may be requested in the acute phase is the **onsite work/home/school based review and intervention**.

The onsite work/home/school based review and intervention is specifically intended to address the insured person's functional issues and promote return to function. It is expected that this service will be required under this Guideline only when the insured person is experiencing significant challenges performing his/her functional requirements at work, at home or at school.

In the event that the initial assessment and/or continuing clinical review during the acute phase reveals that the insured person is encountering significant issues performing functional tasks at work, at home or at school as a result of his/her injuries, an onsite work/home/school based review and intervention may be indicated. In such cases, the health practitioner will, in accordance with Section 37.2 of the SABS, request prior approval from the insurer on the OCF-23 (unless the requirement for the OCF-23 has been waived by the insurer). If the need for the onsite work/home/school based review and intervention is identified after the initial OCF-23 has been submitted to the insurer, then prior approval for this service will be requested on a separate OCF-23 (unless the requirement for the OCF-23 has been waived by the insurer).

In delivering the onsite work/home/school based review and intervention, the regulated health professional will first undertake an onsite review of the workplace, home or school environment to gain a greater understanding of the significant challenges encountered by the insured person. The insured person will be present during the intervention. Based upon this review, the regulated health professional will intervene appropriately to address any challenges identified with the insured person. Related interventions may include, but are not limited to:

- Contacting the employer or school administrator (with the insured person's consent prior to application being made) to gain permission to conduct an onsite visit and to obtain information, such as a job description, where available.
- Recommending provision of aids and/or devices;
- Recommending minor modifications to the home, workplace or school environment;
- Providing instruction in compensatory strategies or alternate approaches to fulfilling functional tasks; and/or
- Assigning specific functional activities to build up tolerances.

The regulated health professional will document the onsite work/home/school based review and intervention, along with evidence of associated consents, on the insured person's file. The format used for this documentation is left to the clinical judgement of the regulated health professional and the requirements of their health regulatory college. The insurer may, from time to time, ask to review a copy of this documentation. The regulated health professional will also summarize the onsite work/home/school based review and intervention on the Pre-approved Framework Extension Request and Discharge Report (OCF-24).

The onsite work/home/school based review and intervention is not an assessment for the purposes of determining eligibility for housekeeping, attendant care or income replacement benefits.

- **Other Interventions that will facilitate pain management, activation and return to function (as described above under the initial visit)**

c) Supplementary goods and services during the acute phase

There may be occasions when the insured person experiences minor secondary injuries and/or symptoms that are not related to the WAD I or WAD II injury that require supplementary goods and/or services. In such cases, the health practitioner may provide the supplementary goods and/or services that are deemed necessary, up to a maximum cost of \$170.46, without prior approval of the insurer, providing these secondary injuries/symptoms:

- i. Resulted from the same accident as the WAD I or WAD II;
- ii. Are not of sufficient type or severity to require goods or services beyond those available within this Guideline; and
- iii. Can be adequately addressed within the Guideline.

d) Discharge status during or at the conclusion of the acute phase

Based upon continuing clinical review of the insured person and his/her progress during the acute phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the acute phase:

- i. No additional intervention is required (specify functional and employment status on the OCF-24);
- ii. Additional intervention under this Guideline is required;
- iii. Additional intervention outside this Guideline is required; or
- iv. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF.

e) Documentation and invoicing following the acute phase

The documentation that is required at the conclusion of the acute phase is determined by the insured person's discharge status, as described below.

- i. If, after the acute phase, **no additional intervention is required**, the health practitioner will submit the OCF-24 with all the relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

- ii. If, after the acute phase, **additional intervention under this Guideline is required**, the insured person will continue on to the sub-acute phase and therefore an OCF-24 is not required at this point.

The health practitioner may submit the OCF-21C to bill for goods and services delivered during the acute phase or may wait until the insured person is discharged from the PAF to submit the OCF-21C.

- iii. If after the acute phase, **additional intervention outside this Guideline is required**, the health practitioner will submit the OCF-24 with the relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

The health practitioner will also inform the insurance company of the intervention outside of the PAF Guideline that is recommended for the insured person via submission of an OCF-18 or will refer the insured person to another health practitioner, as appropriate.

- iv. If during the acute phase, **the insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF**, the health practitioner will submit the OCF-24 with all relevant sections completed.

The health practitioner will also submit an OCF-21C to bill for the goods and services delivered during the acute phase. This OCF- 21C must be submitted with the completed OCF-24.

f) Fees for the acute phase (see Appendix B - PAF Fee Schedule)

The block fee that will be paid for the acute phase is \$507.44. This fee is payable regardless of the type and number of interventions provided and the number of sessions that the insured person attends.

The block fee that will be paid when the onsite work/home/school based review and intervention is delivered is \$416.98 plus travel and mileage at a rate agreed upon at the time the intervention is approved by the insurer. The onsite work/home/school based review and intervention fee may be billed only once under this Guideline. That is, if this fee is billed during the acute phase, it cannot be billed again during the sub-acute phase.

The fee for completion of the Pre-approved Framework Extension Request and Discharge Report (OCF-24) is \$85.23. This fee will be billed once under this Guideline when the insured person is discharged from the PAF.

The maximum fee for supplementary goods and services under this Guideline is \$170.46 and the transfer fee, if an insured person changes his/her PAF health practitioner, is \$51.10.

10. The sub-acute phase

The insured person continues on to the sub-acute phase of the Guideline if, based upon the continuing clinical review undertaken during the acute phase, the health practitioner determines that the Guideline continues to apply to the insured person and the insured person requires additional PAF intervention to facilitate recovery and return to function.

a) Timing, duration and number of sessions during the sub-acute phase

The sub-acute phase will typically not exceed three weeks in duration and will ideally occur during the fourth, fifth and sixth weeks following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

It is expected that the health practitioner will deliver up to 9 sessions in the sub-acute phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the health practitioner.

b) Components of the sub-acute phase

i. Recommended interventions during the sub-acute phase

- Continuing clinical review (as described above under the acute phase)
- Activity prescription (as described above under the initial visit)
- Reassurance (as described above under the initial visit).
- Education (as described above under the initial visit)
- Home exercise program (as described above under the initial visit)

ii. Discretionary interventions during the sub-acute phase

- Exercise and functional activities (as described above under the initial visit)
- Mobilization and manipulation (as described above under the initial visit)
- Pain management and coping skills education (as described above under the acute phase)
- Diagnostic imaging (as described above under the initial visit)
- Ancillary goods or services (as described above under the acute phase)
- Other Interventions that will facilitate pain management, activation and return to function (as described above under the initial visit)

c) Supplementary goods and services during the sub-acute phase (as described above under the acute phase)

d) Discharge status during or at the conclusion of the sub-acute phase

Based upon continuing clinical review of the insured person and his/her progress during the sub-acute phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the acute phase:

- i. No additional intervention is required (specify functional and employment status on the OCF-24);
- ii. Additional intervention is required under the PAF Guideline, and therefore an extension of the PAF is required;
- iii. Additional intervention is required outside the PAF Guideline; or
- iv. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions or voluntarily withdrew from the PAF.

e) Documentation and invoicing following the sub-acute phase

The documentation that is required at the conclusion of the sub-acute phase is determined by the insured person's discharge status and is as described above under the acute phase.

However, if after the sub-acute phase, **additional intervention under this Guideline is required**, the health practitioner may seek approval from the insurer for an extension of PAF interventions without the need to submit an OCF-23 under section 37.2 of the SABS (Ancillary Goods or Services). If this approval is granted, it is not necessary for the health practitioner to submit the OCF-24 or the OCF-21C at this point given that the insured person will continue on to the post PAF phase. If the insurer does not grant approval for the extension without an OCF-23, the health practitioner may submit an OCF-23 under s. 37.2 of the SABS, or may proceed with submission of the OCF-24 and OCF-21C.

f) Fees for the sub-acute phase (see Appendix B - PAF Fee Schedule)

The fee that will be paid for the sub-acute phase is \$434.68. This is a block fee that is payable regardless of the type and number of interventions provided and regardless of the number of sessions that the insured person attends.

All other fees (i.e. for onsite work/home/school based review and intervention, forms completion, supplementary goods and services, transfer of health practitioner) are as described in the acute phase and as reflected in the PAF fee schedule (Appendix B).

11. The post PAF phase

The requirement for an extension of PAF services will only occur when, based upon the continuing clinical review during the sub-acute phase, the health practitioner believes that up to four more PAF interventions are required in order to resolve the injury and for the insured person to successfully return to function. **Approval of the insurer, in accordance with section 37.2 of the SABS, is required for all extensions of PAF services in the post PAF phase.**

a) Timing, duration and number of sessions during the post PAF phase

The post PAF phase will typically not exceed two weeks in duration and will ideally occur during the seventh and eighth week following the date of accident in order to be consistent with the scientific evidence and to support early/timely intervention.

It is expected that the health practitioner will deliver up to 4 sessions in the post PAF phase. The actual number of sessions delivered and how frequently they occur is based upon the needs of the insured person and the clinical judgement of the health practitioner.

b) Components of the post PAF phase

The only component of the post PAF phase is the delivery of up to four additional PAF interventions deemed appropriate and necessary by the health practitioner in order to facilitate the insured person's recovery and return to function.

c) Discharge status during or at the conclusion of the post PAF phase

Based upon continuing clinical review of the insured person and his/her progress during the post PAF phase, the health practitioner will determine which of the following statements describes the insured person's status when discharged during or at the conclusion of the post PAF phase:

- i. No additional intervention is required (specify functional and employment status on the OCF-24);
- ii. Additional intervention outside of this Guideline is required; or
- iii. The insured person has been discharged from the PAF because he/she is non-compliant, is not attending sessions, or voluntarily withdrew from PAF.

d) Documentation and invoicing following the post PAF phase

The documentation that is required at the conclusion of the post PAF phase is determined by the insured person's discharge status, as is described above under the acute phase.

e) Fees for the post PAF phase (see Appendix B - PAF Fee Schedule)

The fee that will be paid during the post PAF phase is \$46.91 per session to a maximum of \$187.64 for the entire post PAF phase. All other fees (i.e. onsite work/home/school based review and intervention, forms completion, supplementary goods and services, transfer of health practitioner) are as described in the acute phase and as reflected in the PAF fee schedule (Appendix B).

Getting the Facts about Whiplash Brochure*

Getting the facts about Whiplash: Grades I and II

People injured in car accidents sometimes experience a strain of the neck muscles and surrounding soft tissue, known commonly as whiplash. This injury often occurs when a vehicle is hit from the rear or the side, causing a sharp and sudden movement of the head and neck. Whiplash may result in tender muscles (Grade I) or limited neck movement (Grade II). This type of injury is usually temporary and most people who experience it make a complete recovery. If you have suffered a whiplash injury, knowing more about the condition can help you participate in your own recovery. This brochure summarizes current scientific research related to Grade I and II whiplash injuries.

Understanding Whiplash

- Most whiplash injuries are not serious and heal fully.
- Signs of serious neck injury, such as fracture, are usually evident in early assessments. Health care professionals trained to treat whiplash are alert for these signs.
- Pain, stiffness and other symptoms of Grades I or II whiplash typically start within the first 2 days after the accident. A later onset of symptoms does not indicate a more serious injury.
- Many people experience no disruption to their normal activities after a whiplash injury. Those who do usually improve after a few days or weeks and return safely to their daily activities.
- Just as the soreness and stiffness of a sprained ankle may linger, a neck strain can also feel achy, stiff or tender for days or weeks. While some patients get better quickly, symptoms can persist over a longer period of time. For most cases of Grades I and II whiplash, these symptoms gradually decrease with a return to activity.

Daily Activity and Whiplash

- Continuing normal activities is very important to recovery.
- Resting for more than a day or two usually does not help the injury and may instead prolong pain and disability. For whiplash injuries, it appears that "rest makes rusty."
- Injured muscles can get stiff and weak when they're not used. This can add to pain and can delay recovery.
- A return to normal activity may be assisted by active treatment and exercises.
- Cervical collars, or "neck braces," prevent motion and may add to stiffness and pain. These devices are generally not recommended, as they have shown little or no benefit.
- Returning to activity maintains the health of soft-tissues and keeps them flexible - speeding recovery. Physical exercise also releases body chemicals that help to reduce pain in a natural way.
- To prevent development of chronic pain, it is important to start moving as soon as possible.

Tips For Return To Activity

- Avoid sitting in one position for long periods.
- Periodically stand and stretch.
- Sit at your workstation so that the upper part of your arm rests close to your body, and your back and feet are well supported.
- Adjust the seat when driving so that your elbows and knees are loosely bent.
- When shopping or carrying items, use a cart or hold things close to the body for support.
- Avoid contact sports or strenuous exercise for the first few weeks to prevent further injury. Ask your health professional about other sporting or recreational activities.
- Make your sleeping bed comfortable. The pillow should be adjusted to support the neck at a comfortable height.

Treating Whiplash

- Research indicates that successful whiplash treatment requires patient cooperation and active efforts to resume daily activity.
- A treating health care professional will assess your whiplash injuries, and discuss options for treatment and control of pain.
- Although prescription medications are usually unnecessary, temporary use of mild over-the-counter medication may be suggested, in addition to ice or heat.
- Your treating health care professional may recommend appropriate physical treatment.

Avoiding Chronic Pain

- Some whiplash sufferers are reluctant to return to activity, fearing it will make the injury worse. Pain or tenderness may cause them to overestimate the extent of physical damage.
- If your health professional suggests a return to activity, accept the advice and act on it.
- Stay connected with family, friends and co-workers. Social withdrawal can contribute to depression and the development of chronic pain.
- If you are discouraged or depressed about your recovery, talk to your health professional.
- Focus on getting on with your life, rather than on the injury!

Preventing Another Whiplash Injury

- Properly adjusting the height of your car seat head restraint (head rest) will help prevent whiplash injury in an accident. In an ideal adjustment, the top of the head should be in line with the top of the head restraint and there should be no more than 2 to 5 cm between the back of the head and the head restraint.

This brochure provides general information about whiplash injuries. It does not replace advice from a qualified health care professional who can properly assess a whiplash injury and recommend treatment.

**LIGNES DIRECTRICES PRÉAUTORISÉES
POUR LES BLESSURES ASSOCIÉES À UNE ENTORSE CERVICALE
DE STADE I OU II**

Lignes directrices du surintendant n° 02/08

1. Introduction

Les présentes lignes directrices sont établies conformément à l'article 268.3 de la *Loi sur les assurances* et pour les besoins de l'Annexe sur les indemnités d'accident légales (AIAL).

Elles remplacent les *Lignes directrices préautorisées pour les blessures associées à une entorse cervicale de stade I avec ou sans douleur dorsale – Lignes directrices du surintendant n° 05/06*, juin 2006 et les *Lignes directrices préautorisées pour les blessures associées à une entorse cervicale de stade II avec ou sans douleur dorsale – Lignes directrices du surintendant n° 06/07*, juillet 2007.

Pour l'application des présentes lignes directrices, les termes « blessure » et « membre d'une profession de la santé réglementée » s'entendent respectivement au sens donné à « déficience » et « membre d'une profession de la santé » dans l'AIAL.

Les lignes directrices s'appliquent dans les cas où un nouveau formulaire « Confirmation du traitement selon les Lignes directrices préautorisées » (FDIO-23) est remis par un praticien de la santé à partir du 1^{er} juillet 2008 et dans ceux où l'assureur renonce à l'obtention d'un formulaire FDIO-23 à partir du 1^{er} juillet 2008. Les anciennes lignes directrices pour les blessures associées à une entorse cervicale de stade I et de stade II demeurent en vigueur pour les formulaires FDIO-23 qui sont présentés par un praticien de la santé avant le 1^{er} juillet 2008 et les cas où l'assureur renonce à l'obtention du même formulaire avant le 1^{er} juillet 2008.

Les présentes lignes directrices visent à :

- a) accélérer l'accès à des services de réadaptation pour les personnes qui ont un accident de voiture;
- b) améliorer l'utilisation des soins de santé;
- c) aider les assureurs et les praticiens de la santé à déterminer avec exactitude les coûts et les paiements.

Conformément à ces objectifs, les présentes lignes directrices définissent :

- a) les biens et services qui peuvent être fournis à une personne assurée ayant subi une entorse cervicale de stade I ou II;
- b) les biens et services qui, s'ils sont fournis à une personne assurée, seront payés par l'assureur sans autorisation préalable.

Les lignes directrices ont avant tout pour but d'assurer l'application d'une **méthode de restauration fonctionnelle** combinée à des interventions visant à réduire ou à gérer la douleur ou l'invalidité dans le traitement des entorses cervicales de stade I ou II aux phases aiguë et subaiguë du traitement.

2. Types d'invalidité visés par les présentes lignes directrices

Sous réserve des exceptions prévues à la section 3 ci-dessous, l'invalidité d'une personne assurée est couverte par les présentes lignes directrices si elle découle d'une entorse cervicale de stade I ou II.

La personne assurée peut ressentir de la douleur ou présenter des symptômes associés à une entorse cervicale de stade I ou II, par exemple un mal de dos non radiculaire, des douleurs aux épaules, une douleur au bras nécessitant l'intervention d'un spécialiste (non reliée à la radiculopathie), des étourdissements, des acouphènes, des problèmes d'audition et de mémoire, de la dysphagie ou une douleur à l'articulation temporo-mandibulaire. Les lignes directrices continueront de s'appliquer aux personnes assurées qui ressentent d'autres types de douleur ou qui présentent d'autres symptômes, à condition que leur praticien de la santé considère qu'il est possible de gérer efficacement ces douleurs ou symptômes en respectant les délais et la portée des interventions figurant dans les lignes directrices.

3. Types d'invalidité non visés par les présentes lignes directrices

L'invalidité n'est pas couverte par les présentes lignes directrices si la personne assurée a un problème de nature professionnelle, fonctionnelle ou médicale, préexistant ou lié à un accident, qui remplit les critères suivants :

- A. soit l'empêche de participer pleinement au modèle de restauration fonctionnelle;
soit exige un traitement parallèle en plus de celui prévu dans les présentes lignes directrices;
- B. constitue une raison impérieuse justifiant le recours à d'autres biens et services plutôt qu'à ceux prévus dans les lignes directrices.

4. Fournisseurs admissibles

Les fournisseurs pouvant fournir les services prévus dans les présentes lignes directrices sont les praticiens de la santé, au sens de l'AIAL, que la loi autorise à traiter les blessures en question et qui sont en mesure de faire toutes les interventions prévues dans les présentes lignes directrices. En outre, les praticiens de la santé peuvent coordonner la prestation de services par d'autres membres d'une profession de la santé réglementée ou superviser directement la prestation de services à des personnes assurées par un ou plusieurs autres fournisseurs de soins de santé.

5. Changement de praticien de la santé

Il peut arriver qu'une personne assurée recevant déjà des services couverts par les présentes lignes directrices décide de changer de praticien de la santé. Dans ce cas, le nouveau praticien de la santé doit en informer l'assureur de la personne assurée, qui indiquera au nouveau praticien de la santé quels services prévus par les lignes directrices ont déjà été fournis. Par la suite, le nouveau praticien continuera de fournir les services prévus au stade qui convient de manière à répondre le mieux possible aux besoins de la personne assurée. Il ne pourra recevoir un paiement que pour les services qui restent à fournir.

6. Définitions

Les lignes directrices ont avant tout pour but d'assurer l'application d'une méthode de restauration fonctionnelle pour la gestion des entorses cervicales de stade I ou II aux phases aiguë et subaiguë du traitement.

Les définitions qui suivent s'appliquent aux présentes lignes directrices.

- a) **Entorse cervicale** : Résultat d'un mécanisme de transfert d'énergie au cou, par accélération-décélération, qui peut provoquer une lésion des os ou du tissu mou ainsi que diverses manifestations cliniques appelées collectivement troubles associés à l'entorse cervicale (TAEC), au sens du rapport du Groupe de travail sur les troubles associés à l'entorse cervicale de la Société de l'assurance automobile du Québec intitulé *Redéfinir le « Whiplash » et sa prise en charge* qui a été publié dans l'édition du 15 avril 1995 de la revue *Spine*.
- b) **Entorse cervicale de stade I** : Trouble qui se manifeste chez les personnes assurées ayant subi un coup de fouet cervical par une douleur au cou, une raideur ou une douleur à la pression sans signes physiques.
- c) **Entorse cervicale de stade II** : Trouble qui se manifeste chez les personnes assurées ayant subi un coup de fouet cervical par une douleur au cou, une raideur ou une douleur à la pression ainsi que par des atteintes musculosquelettiques, notamment la réduction de l'amplitude des mouvements ou une sensibilité localisée.
- d) **Restauration fonctionnelle** : Approche qui est utilisée par un membre d'une profession de la santé réglementée pour rétablir la capacité fonctionnelle et qui comprend des interventions visant à aider la personne assurée à réduire ou gérer sa douleur. Les interventions sont centrées sur ce que la personne assurée doit faire pour rétablir son autonomie fonctionnelle à la maison et au travail. La personne est soumise à une évaluation destinée à déterminer le niveau de fonctionnement actuel par rapport aux besoins essentiels et les limites fonctionnelles découlant de la blessure. Les interventions du membre d'une profession de la santé réglementée sont ensuite choisies en fonction des limites afin de permettre à la personne de poursuivre ou de reprendre ses activités habituelles à la maison et au travail.
- e) **Phase aiguë du traitement** : Semaines 1 à 3 qui suivent la visite initiale.
- f) **Phase subaiguë du traitement** : Semaines 4 à 6 qui suivent la visite initiale.
- g) **Phase de prolongation du traitement** : Semaines 7 et 8 qui suivent la visite initiale.
- h) **Intervention recommandée** : Intervention qui est idéalement faite par le praticien de la santé de la personne assurée chaque fois que celle-ci se rend à sa clinique pour recevoir des services couverts par les lignes directrices préautorisées.
- i) **Intervention discrétionnaire** : Intervention qui n'a pas nécessairement lieu chaque fois que la personne assurée se rend à la clinique du praticien de la santé pour bénéficier de services couverts par les lignes directrices préautorisées mais qui est plutôt faite à la discrétion du praticien de la santé en fonction des besoins précis de la personne. Le terme « discrétionnaire » **ne signifie pas** que l'intervention en question joue un rôle secondaire dans le traitement de la personne assurée.

7. Diagramme des lignes directrices préautorisées

Le diagramme ci-dessous indique à la fois les étapes qui sont couvertes par les présentes lignes directrices et leur ordre. Il vise à servir de guide visuel et d'aide-mémoire aux personnes qui participent à la prestation et à la gestion des services couverts. Chaque composante du diagramme est expliquée en détail dans le reste du document.

8. Visite initiale

a) Moment, durée et nombre de consultations

La visite initiale et toutes les interventions qui en font partie ont lieu le même jour et, idéalement, dès que possible après l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques dont on dispose et à favoriser une intervention rapide. Les praticiens de la santé sont encouragés à commencer l'intervention au cours de la visite initiale.

b) Composantes de la visite initiale

i. Évaluation

Dans le cadre de l'évaluation de la personne assurée, le praticien de la santé doit faire ce qui suit :

- **Vérifier les antécédents, notamment :**
 - les données démographiques;
 - les blessures, maladies ou invalidités antérieures;
 - les entorses ou problèmes cervicaux antérieurs;
 - les évaluations et les traitements antérieurs;
 - les circonstances et le mécanisme de la blessure actuelle;
 - les symptômes associés à la blessure actuelle;
 - la gravité des symptômes associés à la blessure actuelle.
- **Effectuer un examen physique, notamment :**
 - évaluer l'état général;
 - faire une inspection;
 - palper les points douloureux;
 - déterminer l'amplitude des mouvements;
 - effectuer un examen neurologique;
 - évaluer les blessures connexes.

- **Examiner les capacités fonctionnelles et les facteurs de risque psychosociaux et les consigner, notamment :**

- les changements dans les capacités fonctionnelles de la personne assurée qui découlent de la blessure et, le cas échéant, les limites fonctionnelles pour la réalisation d'activités au travail, à la maison ou à l'école;
- les problèmes psychosociaux découlant de la blessure;
- d'autres facteurs de risque qui compliquent ou empêchent la guérison.

Il est entendu que l'examen des capacités fonctionnelles et des facteurs de risque psychosociaux et leur consignation font partie du champ d'activité du praticien de la santé et n'exigent pas d'examen psychologique en bonne et due forme. Même s'il est recommandé d'employer des outils et instruments normalisés pour faire l'examen des capacités fonctionnelles et des facteurs de risque psychosociaux, le praticien de la santé peut utiliser les outils de son choix.

- **Établir un diagnostic ou définir l'invalidité, notamment :**

- le diagnostic primaire ou l'invalidité (codes CIM-10);
- le diagnostic secondaire ou l'invalidité (codes CIM-10).

- **Obtenir le consentement éclairé de la personne assurée pour les traitements couverts par les lignes directrices préautorisées en lui faisant signer le formulaire « Confirmation du traitement selon les Lignes directrices préautorisées » (FDIO-23) (ou un autre document au besoin si l'assureur n'exige pas de formulaire FDIO-23).**

- **En discutant avec la personne assurée, vérifier la protection dont elle bénéficie (si elle est au courant), c'est-à-dire :**

- obtenir le nom de la société d'assurance automobile, le numéro de police et le nom de l'expert en sinistres;
- déterminer si la personne assurée a une autre protection couvrant les services (p. ex., une assurance-maladie complémentaire);
- demander à la personne assurée si elle a communiqué avec son assureur et, si elle ne l'a pas fait, l'encourager à le faire et à remplir le formulaire « Demande d'indemnités d'accident » (FDIO-1).

- **Demander à la personne assurée sa situation d'emploi afin de déterminer :**

- si elle travaillait au moment de l'accident;
- si elle prodiguait des soins à quelqu'un au moment de l'accident;
- si ses blessures l'empêchent d'assumer ses responsabilités professionnelles ou de prodiguer des soins.

ii. Interventions recommandées pour la visite initiale

Les interventions recommandées pour la visite initiale comprennent ce qui suit.

- **Prescrire des activités**

S'il y a lieu, le praticien de la santé encouragera la personne assurée à demeurer active et à poursuivre ses activités habituelles, car ce sont des facteurs importants dans le processus de rétablissement. Ce faisant, le praticien favorisera l'amélioration fonctionnelle, l'activité et l'adoption d'une attitude positive et réaliste à l'égard du rétablissement.

- **Fournir du réconfort**

Au besoin, le praticien de la santé fournira du réconfort à la personne assurée au sujet de sa blessure et du processus de rétablissement et lui signalera que la plupart des personnes ayant subi une entorse cervicale de stade I ou II recouvrent les capacités fonctionnelles qu'elles avaient avant l'accident en l'espace de quelques semaines.

- **Donner des renseignements**

Le praticien de la santé distribuera, s'il y a lieu, le dépliant intitulé *L'entorse cervicale : les faits* (ci-joint, à titre d'annexe A) et renseignera la personne assurée sur les entorses cervicales, les symptômes habituels, le processus naturel de guérison et le pronostic de rétablissement.

- **Recommander un programme d'exercices à la maison**

Au besoin, le praticien de la santé montrera à la personne assurée des exercices sécuritaires pour le cou qu'elle devra faire régulièrement et lui donnera des conseils à ce sujet. En outre, il établira des exercices personnalisés que la personne pourra faire à la maison, au travail ou à l'école.

iii. Interventions discrétionnaires durant la visite initiale

Les interventions que peut faire le praticien de la santé durant la visite initiale comprennent ce qui suit.

- **Faire des exercices et des activités fonctionnelles**

Si, d'après l'évaluation initiale, le praticien de la santé détermine que des exercices et des activités fonctionnelles durant la visite initiale faciliteraient le rétablissement de la personne assurée et la reprise de ses activités, il peut faire ce type d'interventions. Les exercices et les activités doivent être déterminés d'après les besoins et les exigences fonctionnelles de la personne assurée et le jugement du praticien de la santé. Les activités fonctionnelles et exercices dont il est question dans la présente section font l'objet d'une supervision clinique et peuvent comprendre :

- des exercices visant à restaurer l'amplitude des mouvements;
- des exercices de réadaptation musculaire;
- des exercices isométriques avec de faibles charges destinés à rétablir le contrôle musculaire et le support de la région cervicale.

- **Utiliser la manipulation et la mobilisation**

Si, d'après l'évaluation initiale, le praticien de la santé estime que la mobilisation et la manipulation durant la visite initiale faciliteraient le rétablissement de la personne assurée et la reprise de ses activités, il peut faire ce type d'interventions. Il est à noter que, selon les preuves scientifiques dont on dispose, pour que la mobilisation et la manipulation soient le plus efficaces durant la phase aiguë d'une entorse cervicale de stade I ou II, elles doivent être jumelées à des exercices.

- **Recourir à l'imagerie diagnostique**

Il est permis de faire des radiographies de la personne assurée sans l'autorisation préalable de l'assureur dans les cas suivants :

- les honoraires ne dépassent pas ceux figurant à l'annexe C et l'Assurance-santé de l'Ontario ou une assurance complémentaire est facturée avant l'assureur;
- aucune autre radiographie semblable n'a été prise par un autre praticien de la santé ou établissement de santé depuis l'accident;
- au moins l'une des conditions suivantes est remplie :
 - une lésion osseuse est suspectée;
 - il y a une possibilité de changements dégénératifs, d'instabilité ou d'autres états suffisamment graves pour que les contre-indications relatives à une ou plusieurs interventions soient exclues;
 - une polyarthrite rhumatoïde est suspectée;
 - il y a une possibilité d'ostéoporose;
 - la personne a des antécédents de cancer.

- **Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités**

Si, d'après l'évaluation initiale, le praticien de la santé est d'avis que d'autres interventions précises visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités, par exemple, des traitements de massothérapie, seraient bénéfiques à la personne assurée, il peut faire ces interventions durant la visite initiale ou les visites subséquentes. Le praticien doit tenir compte des preuves scientifiques dont on dispose afin de déterminer l'intervention qui convient le mieux pour traiter une entorse cervicale de stade I ou II durant la phase aiguë. Selon les preuves scientifiques, des interventions telles que le repos et le port continu d'un collier souple sont contre-indiquées pour le traitement d'une entorse cervicale.

c) Interventions recommandées d'après la visite initiale

Le praticien de la santé se basera sur l'évaluation de la personne assurée pour déterminer à la fin de la visite initiale quelle est la conclusion parmi les suivantes qui convient le mieux :

- Il n'est pas nécessaire de poursuivre les interventions.
- D'autres interventions couvertes par les présentes lignes directrices sont nécessaires (l'invalidité de la personne assurée est donc couverte par les lignes directrices).
- D'autres interventions non couvertes par les présentes lignes directrices sont nécessaires (l'invalidité de la personne assurée n'est donc pas couverte par les lignes directrices pour les motifs exposés au point 3 des présentes lignes directrices).

d) Documents et facture à la fin de la visite initiale

À la fin de la visite initiale, le praticien de la santé remplira et enverra le formulaire FDIO-23 (à moins que l'assureur ne l'exige pas).

Le praticien peut également remplir et envoyer le formulaire « Facture d'assurance-automobile standard » (FDIO-21, version C) afin d'obtenir un paiement pour la visite initiale.

e) Honoraires pour la visite initiale (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Des honoraires de 208,49 \$ seront versés pour la visite initiale. Ce montant comprend toutes les évaluations et les interventions effectuées durant la visite initiale et c'est celui qui est versé quel que soit le nombre ou le type d'interventions effectuées durant la visite initiale.

9. Phase aiguë

La personne assurée entre dans la phase aiguë du traitement si, d'après l'évaluation effectuée durant la visite initiale, le praticien de la santé établit que les lignes directrices s'appliquent et que les interventions qui y sont prévues sont nécessaires pour faciliter le rétablissement et la reprise des activités de la personne assurée.

a) Moment, durée et nombre de consultations

En général, la phase aiguë dure au plus trois semaines et se déroule idéalement durant les première, deuxième et troisième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques dont on dispose et à favoriser une intervention rapide.

Les consultations durant la phase aiguë s'ajoutent aux interventions faites durant la visite initiale. Le membre d'une profession de la santé réglementée devrait donner un maximum de 10 consultations durant cette phase. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement du membre d'une profession de la santé réglementée.

b) Composantes de la phase aiguë

i. Interventions recommandées pour la phase aiguë

- **Poursuivre les examens cliniques**

Durant la phase aiguë, le praticien de la santé fera régulièrement des examens cliniques de l'état de la personne assurée et de ses progrès vers la restauration des capacités fonctionnelles et modifiera les interventions au besoin.

- **Prescrire des activités (se reporter à la section ci-dessus sur la visite initiale)**

- **Fournir du réconfort (se reporter à la section ci-dessus sur la visite initiale)**

- **Donner des renseignements (se reporter à la section ci-dessus sur la visite initiale)**

- **Recommander un programme d'exercices à la maison (se reporter à la section ci-dessus sur la visite initiale)**

ii. Interventions discrétionnaires durant la phase aiguë

- **Faire des exercices et des activités fonctionnelles (se reporter à la section ci-dessus sur la visite initiale)**
- **Utiliser la mobilisation et la manipulation (se reporter à la section ci-dessus sur la visite initiale)**
- **Donner des renseignements sur la gestion de la douleur et les habiletés d'adaptation**

Si, d'après l'évaluation initiale et les examens cliniques réguliers effectués durant la phase aiguë, le praticien de la santé constate que la personne assurée semble souffrir ou avoir de la difficulté à gérer les effets de sa blessure, il peut lui donner des renseignements sur la gestion de la douleur et les habiletés d'adaptation afin d'éliminer les obstacles à son rétablissement. Même si, pour ce faire, il est recommandé d'employer une méthode standard, le praticien de la santé peut utiliser la méthode de son choix.

- **Recourir à l'imagerie diagnostique (se reporter à la section ci-dessus sur la visite initiale)**
- **Fournir des biens ou des services accessoires**

Avec l'approbation préalable de l'assureur, un membre d'une profession de la santé réglementée peut fournir des biens ou des services accessoires pendant que la personne assurée est couverte par les présentes lignes directrices.

Pour l'application des lignes directrices, l'**inspection et l'intervention sur place au travail, à la maison ou à l'école** constituent les biens ou services accessoires qui peuvent être demandés durant la phase aiguë.

L'inspection et l'intervention sur place au travail, à la maison ou à l'école visent surtout à régler les problèmes fonctionnels de la personne assurée et à faciliter la reprise des activités. Ce service fourni dans le cadre des lignes directrices ne devrait être nécessaire que si la personne assurée a beaucoup de difficulté à effectuer des tâches fonctionnelles au travail, à la maison ou à l'école.

Si l'évaluation initiale ou les examens cliniques réguliers effectués durant la phase aiguë révèlent que la personne assurée a beaucoup de difficulté à effectuer des tâches fonctionnelles au travail, à la maison ou à l'école à cause de ses blessures, il peut être bon de faire une inspection et une intervention sur place au travail, à la maison ou à l'école. Dans ce cas, le praticien de la santé demande l'approbation de l'assureur dans le formulaire FDIO-23 conformément à l'article 37.2 de l'ALAL (à moins que l'assureur ne renonce à cette exigence). S'il ressort qu'une inspection et une intervention sur place au travail, à la maison ou à l'école est nécessaire une fois que le premier formulaire FDIO-23 a été envoyé à l'assureur, il faut obtenir une approbation préalable pour ce service en présentant un nouveau formulaire FDIO-23 (à moins que l'assureur ne renonce à cette exigence).

Lorsqu'il doit faire une inspection et une intervention sur place au travail, à la maison ou à l'école, le membre d'une profession de la santé réglementée commence par inspecter les lieux afin de bien comprendre les principales difficultés de la personne assurée. Celle-ci doit idéalement être présente durant l'intervention. Une fois l'inspection terminée, le membre d'une profession de la santé réglementée fera une intervention appropriée afin d'éliminer les difficultés relevées. Il peut notamment :

- communiquer avec l'employeur ou la direction de l'école (avec le consentement préalable de la personne assurée) afin d'obtenir la permission d'effectuer une visite sur place et d'obtenir des renseignements, comme une description de travail, s'il en existe une;
- recommander que des aides ou des appareils soient fournis;
- recommander que des modifications mineures soient apportées au milieu à la maison, dans le lieu de travail ou à l'école;
- proposer des stratégies compensatoires ou d'autres façons de procéder pour accomplir des tâches fonctionnelles;
- attribuer des activités fonctionnelles précises afin d'accroître la tolérance.

Le membre d'une profession de la santé réglementée consignera des renseignements sur l'inspection et l'intervention sur place au travail, à la maison ou à l'école dans le dossier de la personne assurée et y versera les documents prouvant que les consentements nécessaires ont été donnés. La forme que prendront les renseignements et documents en question dépendra du jugement du membre d'une profession de la santé réglementée ainsi que des exigences de l'ordre de réglementation des professionnels de la santé dont il relève. L'assureur peut demander d'examiner ces renseignements et documents en tout temps. Le membre d'une profession de la santé réglementée résumera l'inspection et l'intervention sur place au travail, à la maison et à l'école dans le Rapport de statut et de congé aux fins des Lignes directrices préautorisées (FDIO-24).

L'inspection et l'intervention sur place au travail, à la maison ou à l'école ne constituent pas une évaluation visant à déterminer l'admissibilité à des services d'entretien ménager, des services d'auxiliaires ou une indemnité de remplacement de revenu.

- **Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités (se reporter à la section ci-dessus sur la visite initiale)**

c) Biens et services supplémentaires durant la phase aiguë

Il peut arriver que la personne assurée subisse des blessures secondaires légères ou présente des symptômes non liés à une entorse cervicale de stade I ou II pour lesquels des biens ou des services supplémentaires sont nécessaires. Dans ce cas, le praticien de la santé peut fournir les biens ou services supplémentaires jugés nécessaires, jusqu'à concurrence de 170,46\$, sans l'approbation préalable de l'assureur, à condition que les blessures secondaires ou les symptômes :

- découlent du même accident que l'entorse cervicale de stade I ou II;
- soient d'un type ou d'une gravité qui ne nécessite pas de biens ou services autres que ceux couverts par les présentes lignes directrices;
- puissent être soignés au moyen des biens et services prévus dans les présentes lignes directrices.

d) État au moment du congé durant ou après la phase aiguë

D'après les examens cliniques réguliers et les progrès réalisés durant la phase aiguë, le praticien de la santé déterminera quelle est la conclusion parmi les suivantes qui concorde avec l'état de la personne assurée au moment de son congé durant ou après la phase aiguë :

- i. Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO-24).
- ii. D'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires.
- iii. D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.
- iv. La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

e) Documents et facture après la phase aiguë

Les documents exigés à la fin de la phase aiguë dépendent de l'état de la personne assurée lorsqu'elle obtient son congé, conformément aux explications données ci-dessous.

- i. Si, après la phase aiguë, **il n'est pas nécessaire de poursuivre les interventions**, le praticien de la santé enverra le formulaire FDIO-24 après avoir rempli toutes les sections utiles.

En outre, il enverra le formulaire FDIO-21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO-24.

- ii. Si, après la phase aiguë, **d'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires**, la personne assurée passera à la phase subaiguë. Par conséquent, il ne sera pas nécessaire de remplir un formulaire FDIO-24 à ce stade.

Le praticien de la santé peut envoyer un formulaire FDIO-21 – Version C pour facturer les biens et services fournis durant la phase aiguë ou attendre que la personne assurée obtienne son congé pour le faire.

- iii. Si, après la phase aiguë, **d'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires**, le praticien de la santé enverra un formulaire FDIO-24 après avoir rempli les sections utiles.

Le praticien de la santé enverra également un formulaire FDIO-21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO-24.

En outre, le praticien informera l'assureur de l'intervention recommandée non couverte par les lignes directrices préautorisées en lui faisant parvenir un formulaire FDIO-18 ou il renverra la personne assurée à un autre praticien de la santé, au besoin.

- iv. Si, durant la phase aiguë, **la personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne participait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées**, le praticien de la santé enverra un formulaire FDIO-24 après avoir rempli toutes les sections utiles.

Le praticien de la santé enverra également un formulaire FDIO-21 – Version C pour facturer les biens et services fournis durant la phase aiguë. Ce formulaire doit accompagner le formulaire FDIO-24.

f) Honoraires pour la phase aiguë (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires forfaitaires payables pour la phase aiguë s'élèvent à 507,44\$. C'est ce montant qui est versé quel que soit le nombre ou le type d'interventions et le nombre de consultations données à la personne assurée.

Les honoraires forfaitaires versés pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école se chiffrent à 416,98 \$, plus les frais de déplacement et le kilométrage à un taux convenu au moment où l'intervention est approuvée par l'assureur. Selon les présentes lignes directrices, des honoraires pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école ne peuvent être facturés qu'une seule fois. Autrement dit, si ces honoraires sont facturés durant la phase aiguë, il ne sera pas possible d'en facturer d'autres durant la phase subaiguë.

Les honoraires pouvant être exigés pour remplir le Rapport de statut et de congé aux fins des Lignes directrices préautorisées (formulaire FDIO-24) sont de 85,23 \$. Conformément aux lignes directrices, ils ne sont facturés qu'une seule fois, c'est-à-dire au moment où la personne assurée obtient son congé.

Les honoraires maximums pour les biens et services supplémentaires couverts par les présentes lignes directrices sont de 170,46 \$ et les honoraires de transfert versés lorsqu'une personne assurée change de praticien de la santé sont de 51,10 \$.

10. Phase subaiguë

La personne assurée arrive à la phase subaiguë du traitement si, d'après les examens cliniques réguliers effectués durant la phase aiguë, le praticien de la santé détermine que les lignes directrices préautorisées continuent de s'appliquer et que des interventions supplémentaires couvertes par ces lignes directrices sont nécessaires afin de faciliter le rétablissement de la personne assurée et la reprise de ses activités.

a) Moment, durée et nombre de consultations

En général, la phase subaiguë a une durée maximale de trois semaines et se déroule idéalement durant les quatrième, cinquième et sixième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques et à favoriser une intervention rapide.

Le praticien de la santé devrait offrir un maximum de 9 consultations durant la phase subaiguë. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement du praticien de la santé.

b) Composantes de la phase subaiguë**i. Interventions recommandées pour la phase subaiguë**

- Poursuivre les examens cliniques (se reporter à la section ci-dessus sur la phase aiguë)
- Prescrire des activités (se reporter à la section ci-dessus sur la visite initiale)
- Fournir du réconfort (se reporter à la section ci-dessus sur la visite initiale)
- Donner des renseignements (se reporter à la section ci-dessus sur la visite initiale)
- Recommander un programme d'exercices à la maison (se reporter à la section ci-dessus sur la visite initiale)

ii. Interventions discrétionnaires pour la phase subaiguë

- Faire des exercices et des activités fonctionnelles (se reporter à la section ci-dessus sur la visite initiale)
- Utiliser la mobilisation et la manipulation (se reporter à la section ci-dessus sur la visite initiale)
- Donner des renseignements sur la gestion de la douleur et les habiletés d'adaptation (se reporter à la section ci-dessus sur la phase aiguë)
- Recourir à l'imagerie diagnostique (se reporter à la section ci-dessus sur la visite initiale)
- Fournir des biens ou des services accessoires (se reporter à la section ci-dessus sur la phase aiguë)
- Prévoir d'autres interventions visant à faciliter la gestion de la douleur, le mouvement et la reprise des activités (se reporter à la section ci-dessus sur la visite initiale)

c) Biens et services supplémentaires durant la phase subaiguë (se reporter à la section ci-dessus sur la phase aiguë)**d) État au moment du congé durant ou après la phase subaiguë**

D'après les examens cliniques réguliers et les progrès réalisés durant la phase subaiguë, le praticien de la santé déterminera quelle conclusion parmi les suivantes correspond à l'état de la personne assurée lorsqu'elle obtient son congé durant ou après la phase subaiguë :

- Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO-24).
- D'autres interventions couvertes par les lignes directrices préautorisées sont nécessaires – il faut donc prolonger les interventions couvertes par les lignes directrices préautorisées.
- D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.
- La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

e) Documents et facture après la phase subaiguë

Les documents exigés à la fin de la phase subaiguë dépendent de l'état de la personne assurée lorsqu'elle obtient son congé, conformément aux explications données dans la section portant sur la phase aiguë.

Cependant, si, après la phase subaiguë, **d'autres interventions couvertes par les présentes lignes directrices sont nécessaires**, le praticien de la santé peut demander à l'assureur d'approuver une prolongation des interventions couvertes sans avoir à envoyer le formulaire FDIO-23, de la façon prévue par l'article 37.2 de l'AIAL (biens ou services accessoires). Si l'assureur donne son approbation, le praticien de la santé n'est pas tenu d'envoyer un formulaire FDIO-24 ou FDIO-21 – Version C à ce stade, étant donné que la personne assurée passera à la phase de prolongation. Si l'assureur n'approuve pas la prolongation sans recevoir un formulaire FDIO-23, le praticien de la santé peut envoyer un formulaire FDIO-23, comme le prévoit l'article 37.2 de l'AIAL, ou encore les formulaires FDIO-24 et FDIO-21 – Version C.

f) Honoraires pour la phase subaiguë (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires payables pour la phase subaiguë s'élèvent à 434,68 \$. C'est ce montant qui est versé quel que soit le nombre ou le type d'interventions et le nombre de consultations données à la personne assurée.

Tous les autres honoraires (p. ex., pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école, les formulaires à remplir, les biens et services supplémentaires ou le changement de praticien) sont ceux indiqués dans la section sur la phase aiguë et dans l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées ».

11. Phase de prolongation du traitement couvert par les lignes directrices préautorisées

Les services couverts par les lignes directrices préautorisées ne seront prolongés que si, d'après les examens cliniques réguliers effectués durant la phase subaiguë, le praticien de la santé est d'avis qu'au plus quatre interventions supplémentaires couvertes par les lignes directrices préautorisées sont nécessaires pour assurer la guérison de la blessure et permettre à la personne assurée de reprendre ses activités avec succès. **Conformément à l'article 37.2 de l'AIAL, l'approbation de l'assureur est nécessaire pour toutes les prolongations du traitement couvert par les lignes directrices en question.**

a) Moment, durée et nombre de consultations

En général, la phase de prolongation dure au plus deux semaines et se déroule idéalement durant les septième et huitième semaines qui suivent l'accident de manière à respecter la démarche nécessaire selon les preuves scientifiques et à favoriser une intervention rapide.

Le praticien de la santé devrait offrir un maximum de 4 consultations durant la phase de prolongation du traitement. Leur nombre réel et leur fréquence dépendent des besoins de la personne assurée et du jugement clinique du praticien de la santé.

b) Composantes de la phase de prolongation

Cette phase ne compte qu'une seule composante, c'est-à-dire un maximum de quatre interventions supplémentaires couvertes par les lignes directrices préautorisées que le praticien de la santé juge indiquées et nécessaires au rétablissement de la personne assurée et à la reprise de ses activités.

c) État au moment du congé durant ou après la phase de prolongation

D'après les examens cliniques réguliers et les progrès réalisés durant la phase de prolongation, le praticien de la santé déterminera quelle conclusion parmi les suivantes correspond à l'état de la personne assurée lorsqu'elle obtient son congé durant ou après la phase de prolongation :

- i. Il n'est pas nécessaire de poursuivre les interventions (préciser le statut fonctionnel et le statut d'emploi dans le formulaire FDIO-24).
- ii. D'autres interventions non couvertes par les lignes directrices préautorisées sont nécessaires.
- iii. La personne assurée a obtenu son congé parce qu'elle ne se conformait pas aux lignes directrices préautorisées, elle ne se présentait pas aux consultations ou elle a choisi de ne plus se prévaloir des interventions couvertes par les lignes directrices préautorisées.

d) Documents et facture après la phase de prolongation

Les documents exigés à la fin de la phase de prolongation dépendent de l'état de la personne assurée lorsqu'elle obtient son congé. Les états sont expliqués ci-dessus dans la section portant sur la phase aiguë.

e) Honoraires pour la phase de prolongation (se reporter à l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées »)

Les honoraires payables pour chaque consultation durant la phase de prolongation sont de 46,91 \$, jusqu'à concurrence de 187,64 \$ pour toute la phase. Tous les autres honoraires (p. ex., pour l'inspection et l'intervention sur place au travail, à la maison ou à l'école, les formulaires à remplir, les biens et services supplémentaires ou le changement de praticien) sont ceux indiqués dans la section sur la phase aiguë et dans l'annexe B intitulée « Tableau des honoraires pour les interventions couvertes par les lignes directrices préautorisées ».

Les faits sur l'entorse cervicale*

Les faits sur l'entorse cervicale de stade I ou II

Les personnes qui ont un accident de voiture subissent parfois un claquage des muscles du cou et des tissus mous environnants appelé communément entorse. Ce genre de blessure survient le plus souvent lorsqu'une voiture est heurtée à l'arrière ou sur le côté, ce qui provoque un mouvement brusque de la tête et du cou. Une entorse cervicale peut causer des douleurs musculaires (stade I) ou aller jusqu'à limiter les mouvements du cou (stade II). C'est un type de blessure le plus souvent temporaire, qui guérit presque toujours complètement. Si vous avez subi une entorse cervicale, des renseignements relatifs à votre blessure peuvent vous aider à participer à votre propre guérison. La présente brochure résume l'état actuel des recherches scientifiques sur les blessures associées à une entorse cervicale de stade I ou II.

Renseignements généraux sur les entorses cervicales

- La plupart des entorses cervicales sont sans gravité et guérissent complètement.
- Les signes de blessures graves au cou, comme les fractures, sont le plus souvent évidents dès les premiers examens. Les professionnels de la santé formés pour le traitement des entorses cervicales surveillent ces signes.
- La douleur, la raideur et les autres symptômes des entorses cervicales de stade I ou II surviennent le plus souvent dans les deux premiers jours suivant l'accident. L'apparition tardive des symptômes ne signifie pas que la blessure est plus sérieuse.
- La plupart du temps, une entorse cervicale n'empêche pas les gens de poursuivre leurs activités normales. Dans le cas contraire, ils les reprennent le plus souvent en toute sécurité après quelques jours ou quelques semaines.
- À l'instar des douleurs et de la raideur résultant d'une entorse de la cheville, celles provoquées par une entorse cervicale peuvent persister pendant des jours ou des semaines. Il y a des patients qui guérissent rapidement, mais il y en a d'autres chez qui les symptômes persistent longtemps. Dans la plupart des cas d'entorse cervicale de stade I ou II, les symptômes diminuent avec la reprise des activités.

Poursuite des activités quotidiennes

- La poursuite des activités normales contribue grandement à la guérison.
- En général, le repos pendant un jour ou deux n'aide pas à guérir et a plutôt pour effet de prolonger la douleur et l'invalidité. En cas d'entorse cervicale, il semblerait que « plus on se repose, plus on est rouillé ».
- Les muscles blessés ont tendance à se raidir et à faiblir lorsqu'ils manquent d'exercice, ce qui peut accroître la douleur et retarder la guérison.
- La reprise des activités normales peut être facilitée par un traitement et des exercices actifs.
- Les collets cervicaux empêchent de bouger, ce qui peut faire augmenter la raideur et la douleur. En général, ils ne sont pas recommandés, car les effets bénéfiques sont minimes ou inexistantes.
- La reprise des activités garde les tissus mous sains et souples, ce qui accélère la guérison. L'exercice produit également des substances chimiques naturelles dans l'organisme qui réduisent la douleur.
- Pour empêcher les douleurs chroniques, il faut absolument redevenir actif le plus vite possible.

Conseils pour la reprise des activités

- Éviter de demeurer assis dans la même position pendant de longues périodes.
- Levez-vous régulièrement pour faire des étirements.
- Asseyez-vous à votre poste de travail en gardant la partie supérieure des bras près du corps et en veillant à ce que votre dos et vos pieds soient bien appuyés.
- Lorsque vous conduisez, placez votre siège de manière à ce que vos coudes et vos genoux soient légèrement pliés.
- Pour faire des emplettes ou transporter des objets, servez-vous d'un chariot ou tenez les objets près de votre corps pour réduire l'effort.
- Évitez les sports de contact et les exercices intenses pendant les premières semaines, afin de prévenir de nouvelles blessures. Demandez l'avis de votre professionnel de la santé sur les autres sports ou loisirs auxquels vous pourriez vous adonner.
- Veillez à ce que votre lit soit confortable. Placez l'oreiller à une hauteur confortable pour bien soutenir votre cou.

Traitement des entorses cervicales

- Selon les recherches, plus le patient coopère et s'efforce de reprendre ses activités quotidiennes, meilleures sont les chances de succès du traitement des entorses cervicales.
- Votre professionnel de la santé traitant évaluera votre entorse cervicale et discutera des options pour le traitement et le soulagement de la douleur.
- Les médicaments sur ordonnance sont rarement nécessaires, mais il peut être conseillé d'employer des médicaments sans ordonnance légers, en plus d'appliquer de la glace ou de la chaleur.
- Votre professionnel de la santé traitant peut recommander un traitement physique approprié.

Pour éviter les douleurs chroniques

- Une partie des personnes qui ont subi une entorse cervicale hésitent à reprendre leurs activités parce qu'elles craignent d'aggraver leur blessure. La douleur peut les amener à surestimer l'étendue des dommages.
- Si votre professionnel de la santé conseille de reprendre vos activités, n'hésitez pas à le faire.
- Restez en communication avec vos parents, amis et collègues. L'isolement peut favoriser la dépression et les douleurs chroniques.
- Si vous ressentez du découragement en pensant à votre guérison, parlez-en à votre professionnel de la santé.
- Efforcez-vous de reprendre vos activités au lieu de ne songer qu'à votre blessure!

Prévention

- Placez l'appui-tête de votre siège de voiture à la hauteur qui convient peut aider à prévenir une autre entorse cervicale en cas d'accident. Idéalement, le haut de la tête devrait être aligné avec le haut de l'appui-tête, et l'espace entre la tête et l'appui-tête devrait être d'au plus 2 à 5 cm.

La présente brochure contient des renseignements généraux sur les entorses cervicales. Elle n'est pas destinée à remplacer les conseils d'un professionnel de la santé compétent capable de bien évaluer une entorse cervicale et de recommander un traitement.

Les renseignements qui figurent ici sont basés sur les résultats des recherches scientifiques les plus récentes sur les entorses cervicales et ils ont été approuvés par les organismes suivants :

(General)

Note: Ontario Regulation 282/98 has previously been amended. For the legislative history of the Regulation, see the Table of Consolidated Regulations – Detailed Legislative History which can be found at www.e-Laws.gov.on.ca.

1. Ontario Regulation 282/98 is amended by adding the following sections:**ADDITIONAL INFORMATION ON ASSESSMENT ROLL UNDER SUBSECTION 14 (1) OF THE ACT**

47. (1) For the purposes of paragraph 9 of subsection 14 (1) of the Act, the following information must be included on the assessment roll for the 2009 and subsequent taxation years:

1. The assessment or classification of the land as shown on the assessment roll returned for the 2008 taxation year, adjusted for any changes in value for assessment purposes and any changes in classification, if the changes would affect the assessment or classification of the land on the assessment roll for the 2009 taxation year.
2. The assessment of the land for the taxation year, as adjusted under section 19.1 of the Act.

(2) For the purposes of paragraph 1 of subsection (1), the assessment of the land is adjusted for only those changes in value for assessment purposes that are not the result of a general reassessment, after any further changes required as a result of a reconsideration under section 39.1 of the Act or an appeal under section 40 of the Act.

ADJUSTMENTS UNDER SECTION 19.1 OF THE ACT

48. (1) This section applies with respect to the assessment of land if section 19.1 of the Act applies with respect to the current value of the land for the 2009 and subsequent taxation years.

(2) A reference in this section to an assessment of land shown on the assessment roll for the 2008 taxation year or that would be shown on the assessment roll for the 2009 taxation year is deemed to be a reference to the assessment of the land for that taxation year after any changes required as a result of a reconsideration under section 39.1 of the Act, an appeal under section 40 of the Act or an application under section 46 of the Act.

(3) The eligible increase in respect of the land for the 2009, 2010 and 2011 taxation years is the amount, if any, by which "A" exceeds "B",

where,

"A" is the assessment of the land that would be shown on the assessment roll for the 2009 taxation year if subsection 19.1 (3) of the Act did not apply, and

"B" is the assessment of the land that is shown on the assessment roll for the 2008 taxation year.

(4) Despite subsection (3), the eligible increase in respect of the land for the 2009, 2010 and 2011 taxation years is the amount by which the amount described as "A" in subsection (3) exceeds the amount of the assessment of the land for the 2008 taxation year as adjusted for the purposes of paragraph 1 of subsection 47 (1) if,

- (a) the amount described as "A" in subsection (3) exceeds the amount of the assessment for the 2008 taxation year as adjusted for the purposes of paragraph 1 of subsection 47 (1); and
- (b) the amount of the assessment for the 2008 taxation year as adjusted for the purposes of paragraph 1 of subsection 47 (1) does not equal the assessment of the land that is shown on the assessment roll for the 2008 taxation year.

(5) This section applies as follows in the following circumstances:

1. If different portions of the land are classified in different classes of real property prescribed under section 7 of the Act or prescribed under the *Education Act*, or if a subclass is prescribed under section 8 of the Act in respect of one or more portions of the land, this section applies to each portion of the land that is in a different class or subclass, as the case may be, as if it were separate land.

2. If different portions of the land are subject to different tax rates for municipal or school purposes or a portion of the land is exempt from either or both types of taxes, this section applies to each portion as if it were separate land.
3. This section applies in respect of any portion of the land assessed against a tenant under subsection 18 (1) of the Act.

PRESCRIBED PROPERTY CLASSES FOR THE PURPOSES OF SUBSECTION 19.1 (2) OF THE ACT

- 49.** For the purposes of subsection 19.1 (2) of the Act, the following property classes are prescribed:
1. All property classes prescribed under section 7 of the Act that are not listed in subsection 19.1 (2) of the Act.
 2. All subclasses of property prescribed under subsection 8 (1) of the Act.
 3. All classes of real property prescribed under the *Education Act*.

APPEALS

50. (1) For the purposes of clause 40 (1) (b) of the Act, an appeal may be made in writing to the Assessment Review Board on the basis that the amount of the assessment of land for the 2008 taxation year as adjusted for the purposes of paragraph 1 of subsection 47 (1) or the classification of the land for the purposes of that paragraph is incorrect.

(2) An appeal under subsection (1) does not affect any tax liability for the land for the 2008 taxation year.

2. This Regulation comes into force on the day it is filed.

Toutefois, dans le cas où la partie ne fournit pas le témoignage de toute personne ayant une connaissance directe des faits contestés, le tribunal peut en tirer des conclusions défavorables, s'il y a lieu, lors de l'audition de la motion.

(2) Lorsqu'une motion en vue d'obtenir un jugement sommaire est appuyée d'un affidavit ou d'autres éléments de preuve, la partie intimée ne peut pas se contenter uniquement des allégations ou dénégations contenues dans ses actes de procédure. Elle doit préciser, au moyen d'un affidavit ou d'autres éléments de preuve, des faits spécifiques indiquant qu'il y a une véritable question litigieuse nécessitant la tenue d'une instruction.

1. Apprécier la preuve.
2. Évaluer la crédibilité d'un déposant.
3. Tirer une conclusion raisonnable de la preuve.

Témoignage oral (mini-procès)

(4) La version française des paragraphes 20.04 (3) et (4) du Règlement est modifiée par substitution de «seule véritable question litigieuse» à «seule question litigieuse» partout où figure cette expression.

14. Les règles 20.05 et 20.06 du Règlement sont abrogées et remplacées par ce qui suit :

NÉCESSITÉ D'UNE INSTRUCTION

Pouvoirs du tribunal

20.05 (1) Si le jugement sommaire est refusé ou n'est accordé qu'en partie, le tribunal peut rendre une ordonnance dans laquelle il précise les faits pertinents qui ne sont pas en litige et les questions qui doivent être instruites. Il peut également ordonner que l'action soit instruite de façon expéditive.

Directives et conditions

(2) Le tribunal qui ordonne l'instruction d'une action en vertu du paragraphe (1) peut donner les directives ou imposer les conditions qu'il estime justes, et ordonner notamment :

- a) la remise par chaque partie, dans un délai déterminé, d'un affidavit de documents conformément aux directives du tribunal;
- b) la présentation des motions dans un délai déterminé;
- c) le dépôt, dans un délai déterminé, d'un exposé des faits pertinents qui ne sont pas en litige;
- d) le déroulement des interrogatoires préalables conformément à un plan d'enquête préalable établi par le tribunal, dans lequel un calendrier des interrogatoires peut être fixé et des limites au droit à l'interrogatoire préalable qui sont justes peuvent être imposées, y compris la limitation de l'enquête préalable à des questions qui n'ont pas été traitées dans les affidavits ou les autres éléments de preuve présentés à l'appui de la motion et dans les contre-interrogatoires sur ceux-ci;
- e) la modification d'un plan d'enquête préalable convenu par les parties en application de la Règle 29.1 (plan d'enquête préalable);
- f) l'utilisation, à l'instruction, des affidavits ou des autres éléments de preuve présentés à l'appui de la motion et des contre-interrogatoires sur ceux-ci comme s'il s'agissait d'interrogatoires préalables;
- g) la limitation de la durée de tout interrogatoire d'une personne prévu à la Règle 36 (obtention de dépositions avant l'instruction);
- h) la remise par une partie, dans un délai déterminé, d'un résumé écrit de la déposition prévue d'un témoin;
- i) la limitation de la durée de tout interrogatoire oral d'un témoin à l'instruction;
- j) la présentation par affidavit de tout ou partie de la déposition d'un témoin;
- k) la rencontre, sous toutes réserves, des experts engagés par les parties ou en leur nom relativement à l'action pour déterminer les questions en litige sur lesquelles ils s'entendent et celles sur lesquelles ils ne s'entendent pas, pour tenter de clarifier et régler toute question en litige qui fait l'objet d'un désaccord et pour rédiger une déclaration conjointe exposant les sujets d'entente et de désaccord ainsi que les motifs de ceux-ci, s'il estime que les économies de temps ou d'argent ou les autres avantages qui peuvent en découler sont proportionnels aux sommes en jeu ou à l'importance des questions en litige dans la cause et que, selon le cas :
 - (i) il y a des perspectives raisonnables d'en arriver à un accord sur une partie ou l'ensemble des questions en litige,
 - (ii) le fondement des opinions d'experts contraires est inconnu et qu'une clarification des questions faisant l'objet d'un désaccord aiderait les parties ou le tribunal;
- l) la remise par chacune des parties d'un résumé concis de sa déclaration préliminaire;
- m) la comparution des parties devant le tribunal au plus tard à une date déterminée, comparution au cours de laquelle le tribunal peut rendre toute ordonnance qu'autorise le présent paragraphe;
- n) l'inscription de l'action pour instruction à une date donnée ou son inscription à un rôle donné, sous réserve des directives du juge principal régional;
- o) la consignation de la totalité ou d'une partie de la somme demandée;
- p) le versement d'un cautionnement pour dépens.

Faits précisés

(3) Lors de l'instruction, les faits précisés conformément au paragraphe (1) ou à l'alinéa (2) c) sont réputés établis, à moins que le juge du procès n'ordonne autrement afin d'éviter une injustice.

Ordonnance : déposition par affidavit

(4) Lorsqu'il est décidé si une ordonnance doit être rendue en vertu de l'alinéa (2) j), le fait qu'une partie opposée peut être fondée à exiger la présence du déposant à l'instruction pour le contre-interroger constitue un facteur pertinent.

Ordonnance : experts, dépens

(5) Si une ordonnance est rendue en vertu de l'alinéa (2) k), chaque partie paie ses propres dépens.

Défaut de se conformer à l'ordonnance

(6) Si une partie ne se conforme pas à une ordonnance de consignation prévue à l'alinéa (2) o) ou à une ordonnance de cautionnement pour dépens prévue à l'alinéa (2) p), le tribunal peut, sur motion de la partie adverse, rejeter l'action, radier la défense ou rendre une autre ordonnance juste.

(7) Si la défense est radiée sur motion présentée en application du paragraphe (6), le défendeur est réputé constaté en défaut.

CONDAMNATION AUX DÉPENS POUR USAGE ABUSIF DE LA RÈGLE

20.06 Le tribunal peut fixer les dépens d'une motion visant à obtenir un jugement sommaire sur une base d'indemnisation substantielle et en ordonner le paiement par une partie si, selon le cas :

- a) la partie a agi déraisonnablement en présentant la motion ou en y répondant;
- b) la partie a agi de mauvaise foi dans l'intention de causer des retards.

Risk and safety management plan, certain facilities

3.1 (1) A person who holds a licence to operate a retail outlet, filling plant, cardlock/keylock, private outlet or container refill centre shall prepare a risk and safety management plan, which shall, at a minimum, address the following matters:

1. A hazard analysis that identifies possible hazardous scenarios, the frequency of those scenarios and their consequences, and that takes into account,
 - i. the most severe incident or situation that could occur at the referenced facility based on the total capacity of propane at the referenced facility, and
 - ii. any less severe incident or situation that could occur at the referenced facility.
 2. A risk assessment that is based on the single largest transient, mobile, portable, or fixed propane storage vessel, as the case may be, at the referenced facility and that,
 - i. estimates the injury or death that would likely be caused to people at or in the vicinity of the referenced facility as a result of an incident or situation described in paragraph 1,
 - ii. reasonably estimates the hazard distance applicable to the referenced facility, and
 - iii. concludes that the assessed risk is acceptable based on the measures described in paragraphs 3 and 4.

Where total capacity at the referenced facility exceeds 5,000 USWG, the risk mitigation and control plan, in addition to accounting for the matters in subparagraph 2 i, shall also consider nearby land use.
